

Watch Me

Jaden Smith

Watch me, watch me
Watch me, do this
Watch me, watch me
Watch me, do this

Can't find me up up and away
I give a fuck bout your wave
My nigga I surf everyday
Drownin' my soul in the basement, aye
I ain't got much in the bank
I got a lot I could say
Got a blue goddess to say
I hope you forgive my mistakes
Yeah, ride around with a renegade
You should take a seat, save your energy
I try to heal the gods with a band-aid
And the time I need you call your enemies
I landed in Ibiza and I need a visa
I ain't playin' with you this no Mamma Mia
Need a Hottie Tottie with a body, yeah
I just spit the knowledge then I'm out of here

Yeaahhh that's what they are when we come around
Yeaahhh this is your town and we run it now
Yeaahhh How big is your army, 100 thou?
Yeaahhh if you want the rain then we comin' down

I stamp that we cool
I'm awesome, kickflip in the Carsons
We should run for the pool
I got the fire flow, the department exhausted
I owe nothing to you
I'm in the tahoe, man you making me nauseous
Pullin up with the crew
You such a hypebeast, man you making me vomit
Look

Watch me, watch me
Watch me, do this
Its always been more than the music
You riding waves in the back of my cruise ship
Look, Watch me, watch me
Watch me, do this
Since 2012 I've been the coolest
If you do not get it my nigga you foolish

Yeaahhh that's what they are when we come around
Yeaahhh this is your town and we run it now
Yeaahhh How big is your army, 100 thou?
Yeaahhh if you want the rain then we comin' down

Look, look, look
This shit is out of here
You got the heat I was not aware
Me and Bebe out in Rodderdam
Got a new man, damn now I see him
He on the floor, in my coliseum

I hope to God he don't sign a prenup
See my ex on the street like I never seen her!

Watch me, watch me
Watch me, do this
You see me dancing like I'm Elvis
Just tell your man that it's all in the pelvis
Watch me, watch me
Watch me, do this
Since 2012 I've been the coolest
If you do not get it my nigga you foolish

Yeaahhh that's what they are when we come around
Yeaahhh this is your town and we run it now
Yeaahhh How big is your army, 100 thou?
Yeaahhh if you want the rain then we comin' down
