

## Come To Me

Jadon Lavik

What do you do when it rains  
Where do you go when the world falls on you  
Who do you call on when all your hope is gone  
All your hope is gone  
What do you do in the pain  
Where do you run when you're thirsty again  
Who do you cry out to when all your strength is gone  
All your strength is gone  
Come to me all who are weary and I will give you rest  
Come to me my yoke is easy and my burden it is light, yeah  
When all you can do is fight to hang on  
Why do you feel like you can make it on your own  
How long can you wait to hold on to his helping hand  
Hold on to his helping hand  
Come to me all who are weary and I will give you rest  
Come to me my yoke is easy and my burden it is light  
(Come to me, come to me)  
There's rest for your soul  
Come rest your weary soul  
There's rest for you soul  
Rest your weary soul  
Come to me all who are weary and I will give you rest  
Come to me my yoke is easy and my burden it is light  
Come to me all who are weary and I will give you rest  
Come to me my yoke is easy and my burden it is light  
(reprise)  
Come to me all who are weary and I will give you rest  
Come to me my yoke is easy and my burden it is light  
Come to me, to me, come to me  
Come to me, come to me, come to me, come to me
