

Following You

Jadon Lavik

When I look to you suddenly I see
I see the real me
Stripped of all the worlds coverings
That's my true, my true identity
This world has so much more clarity
With you walkin' right in front of me
And I'm following you
Yes I'm following you
And I'm following you
Yes I'm following you
And I'll keep it short 'cause I learn so much more
When I'm just listening
With my eyes on you, you're watchin' all I do
That's when my motives are true
This world has so much more clarity
With you walkin' right in front of me
And I'm following you
Yes I'm following you
And I'm following you
Yes I'm following you
With all my heart
With all my soul
With all my mind
And all my strength
With all my heart
With all my soul
With all my mind
And all my strength, I'm yours
I'm following you
I'm following you
I'm following you
I'm following you
This world has so much more clarity
With you walkin' right in front of me
It's such a better place to be
With you in front of me
And I'm following you
Yes I'm following you
And I'm following you
Yes I'm following you
And I'm following you
Yes I'm following you
And I'm following you
Yes I'm following you
And I'm following you
Following you, Following you
