Yea

Millzie

This is that

Soon as you hit the highway turn it up

Step on the gas soon as you light your blunt

My homey been locked up since '97

Just came home causin havoc, callin 911

Just last night on the block heard he emptied his weapon

Same thing he went to jail for in '97

Talk stupid, get a dome checker

Spray your with the AK, that's my home wrecker

I'm long gone

Posted uptown in New York

Smoking Cali with the South Beach, the bronze on

That was a random bar but it was hella clever

Sorta like a finished puzzle well put together

Bedrock must've brainwashed niggas

On how I used to wash niggas, squash niggas

Yea, yoga zoomin with the flow

Fuck truancy, I'll take em to school if they don't go

No matter where I go I'm in a brand new, came deep

I know the spirit a star but I thank it

Hit the kill switch, this that black out kill shit

Lusty shanker, them gangsters is who I been with

Hundred pounds in an hour, yea that's a real flip

Hit the club and serve molly, we on that pill shit

Ha, that potent music in my 6

Spendin dead presidents, presidential my wrist

I fucked your bitch, home wrecker

Text playin, you playin the chrome

Watch it, Millz talk to em

Yo, I'm like could hold you those pops

I got too much pride to work for sunny

Thanks but no thanks, I'm a make my own money

Fuck makin yo runs nigga, rather make my funds thicker

I learned what a bottom bitch was, readin iceberg slim

So you could blame all this pimp shit on him

Back in high-school I did the nautical sweatsuits

With the boats on the pocket, fly chubby nigga

Probably had yo ho as my sidekick

Now I be on some Dubai shit

And only deal with girls who do buy shit

W16 engine bout that achy

Sound like a bulding collapsing when I'm passing

I came from nothing, you can hear it when I'm rappin

Cause when I talk my shit I talk it with passion

Trust me when I say fuck these niggas

That is not a bar, that is from the heart

Whom you travelled through life is though the first in the car

Nigga movin too fast and drive and get popped

Hit the kill switch, this that black out kill shit

Lusty shanker, them gangsters is who I been with

Hundred pounds in an hour, yea that's a real flip

Hit the club and serve molly, we on that pill shit

Ha, that potent music in my 6
