

## Battle Zones

Jag Panzer

Warriors in the rain soaked jungle  
Fighters for an unknown cause  
Death reflecting every victim  
My life is lost in the reapers jaws

Daybreak brings more of the terror  
Napalm clears a path miles long  
My nostrils fill with scents of incineration  
The enemy lies in heaps, hundreds strong

Battle Zones

Rapid fire machines guns blaring  
Flames destroy cities by the score  
I must escape this evil vision  
Get my orders from the overlord

I see the final day is coming  
I feel it way down deep into my bones  
This nightmare is finally over  
Is it time for this man to come home?

I'm coming home
