

Edge of Blindness

Jag Panzer

Killer queen
Killer queen - is that what you say
Diamonds rough - he makes his call
Ritual religion - a spirit game
Calvary blue - a genocide shame

You're running - over the edge
You're screaming - over the edge
You're falling - over the edge
You're bleeding - over the edge

Enfant king - river runs deep
Castle's burning - a dragon sleeps
Newborns cry - to mother's milk
Whorelike babe - soft as silk

You're running - over the edge
You're screaming - over the edge
You're falling - over the edge
You're bleeding - over the edge

You're running
You're screaming
You're falling
You're bleeding

You're driving me past my dreams
Listen to the night, hear their screams
You keep on pushing for a promised land
You keep the beast at bay - he'll catch you if he can

Times healing - cliché we say
Soul aware - of colourless grey
Killing clown, in cavalry blue
Look at your hands - the killer be you

You're running - over the edge
You're screaming - over the edge
You're falling - over the edge
You're bleeding - over the edge
