

## Power Surge

Jag Panzer

Hearts racing, blood boils Fist raising overlords  
Corruption our cry We're metal till we die

Power - In our hearts  
Surging - In our veins  
Power - There's no stopping this force

Full throttle we soar Fist raising overlords  
All hells in our eyes We're metal till we die

Up from the depths dark children arise  
Only to claim this earth as their prize  
Ancient ones have spoken so  
The dark ones arises from below

A birthright to the beastly one  
This earth and all its fallen sons  
Dark children await the timely hour  
In which to claim this earth with fire  
And then devour

Hells fire red glow Fist raising overlords  
We're burning with might We're metal till we die

Up from the depths dark children arise  
Only to claim this earth as their prize  
Dark children await the timely hour  
In which to claim this earth with fire  
And then devour
