

# The Clown

Jag Panzer

Follow me; follow me, where do you go  
To play with Charlie, Charlie O  
Follow me, follow me, you can't win  
Loses bet, sin, sin  
Follow me, follow me, got a special prize  
Sharp as a knife, so big in size  
Follow me, follow me, say sick and distraught  
Ticket to Hell, sealed and bought

Take us down, take us there to see  
You see, evil ones glare  
A vile king, takes the crown, to see  
You see, just the clown

Little boy, little boy, tell me true  
Johnny does the nasty, do you know who?  
Little boy, little boy, did you cry?  
Momma's gone away, daddy tell a lie  
Little boy, little boy, come to the clown  
Giving it to you good, to tie you down  
Little boy, little boy remember this riff  
Get's me crazy, loving a stiff

Take us down, take us there to see  
You see, evil ones glare  
A vile king, takes the crown, to see  
You see, just the clown

He was a clown  
She was a clown  
We was a clown

Bring um young, just for fun, what do you say  
Paradise in Hell, let's play, play, play  
Bring um young, just for fun, play me fool  
Demon on his mind to rule, rule, rule  
Bring um young, just for fun, twisted and sick  
Pagan days, seen it in the flick  
Bring um young, just for fun, say sorrow end  
Clown's delight, eve of the night

Take us down, take us there to see  
You see, evil ones glare  
A vile king, takes the crown, to see  
You see, just the clown  
Take us down, take us there to see  
You see, evil ones glare  
A vile king, takes the crown, to see  
You see, just the clown

He's just a clown  
He's just a clown
