

Vigilant

Jag Panzer

Through the canopy of this darkened world
I see my prey
Never seeing with my eye
Senses raging from this troubled world
I see his heart
Feeling only with my mind

I am the light in the darkened place
I stand alone
Standing ever strong and powerful
I stand alone
Vigilant

A demon of the night
One who never can be seen
A protector of the innocent
Never knowing love
There's no place for it in this heart
I am eternally alone

Time will stop and worlds will end
The vigilant will stand ever strong
