

I Don't Wanna

Jagged Edge

I don't wanna, I don't wanna, I don't wanna, I don't wanna, I don't wanna, I don't wanna

Baby I know its love because everything fits just right.
And you don't give it up, cause you got hot the very first night.

And I could be the one who could change your life and do it right away

Oh babe, baby just let me, let me prove it to you.

Anything that you might need, hope you realize that I'm right here.

Baby tell me that you won't leave,
Realize that I'm right here

I don't wanna live without you, and I don't wanna love nobody else,

I don't wanna spend another day,
And baby what can I say.

And I don't wanna kiss any other lips, and I don't wanna move not a little bit,

Unless its with you my love...I don't wanna, I don't wanna

Said it's something else, and I think of all the time we had,
All those memories, wouldn't trade em for nothing I have, only hope that you could know

All the happiness and joy you bring to me

Cause baby I hope that you know that

You are my everything

Anything that you might need

Hope you realize that I'm right here Baby tell me that you won't leave

Realize I'm right here

You're the only one I'm giving my my love

Must have been sent from someone above
