

## Promise (So So Def Remix)

Jagged Edge

Girl listen  
When I be sittin' at home all by myself now  
I be sayin' damn I had a good girl  
You know?  
You don't even realize how hard it is  
To find somebody like you till they gone  
You know what I mean?  
If you'll let me just, come back in your life  
I-I'll never do it again, I promise

Down at the studio trying to make tracks  
Girl at home all over my back  
Everytime I say that's what I'm doing  
She just thinks it's an excuse  
Cause I'm out try-na get some new snatch  
Now I realize that I don't work too hard  
To keep in here in my life, I've done come to far  
For me to turn around girl  
Ain't none of that shit going down girl  
So believe me when I say

Girl you know you're the only one in my life  
I know I've been wrong  
But I'm try-na live right  
I'll leave my life if it makes it right  
I promise, girl I promise, I promise

I promise  
I'mma stay out of these streets  
I promise  
You'll never be hurt by me  
I promise  
To be the n-i-g  
Cause all along you can get at me  
I promise  
That wasn't in my head  
I promise  
You ain't gotta worry about me  
No more, no more  
Girl just believe, I promise

I promise baby, I'mma be the best man  
I don't even know how to be  
I promise no more Monday nights at the gentleman's club  
It's all about you

Believe I really meant it when I said I left it back  
See me in the streets and I'm not about that  
Said that I'mma be there and I know maybe you can see  
That I'mma be there  
Whenever just cause you're my lady  
I'mma show you just what you deserve  
Tell you, you ain't waitin' no more for your turn  
You say you want a ridah  
And I can be that and so much more like your provider  
And I want you to know I love you

Uh check it out, girl I promise you love  
Promise I never would leave you  
I promise long as you love me I could never decieve you  
I promise you dis, promise you dat  
Whatever you want  
As long as I got it, ain't no problem with that  
You my ebony queen, everything  
Playa ever could dream  
Give you the world and everything in between  
Now you wanted honesty, manogamy  
The way that you honor me  
Ain't no other way it gotta be  
I couldn't see you with another man rolling in sand  
Strolling through the park, in the dark holding his hand  
Me and you versus the world is only the plan  
I know it get rough, but I'm doing all that I can  
Now to the world I'm just Loon from Harlem  
If I had a choice girl I'd rather lose the stardom  
Than to ever lose you, I promise I'll never use you  
This not a game girl, I promise

Come on, come on, come on  
Rock with me, uh we love y'all  
Yeah, uh-huh  
This for the ladies, know what I mean?
