

Ready & Willing

Jagged Edge

Girl it ain't no thing, if you're willing, we can swing
I'm ready and willing, I hope you feel what I'm feeling

Seems, you been looking 'round my way, I can't hide it, I'm here to say
I been feelin', feelin' quite the same and it seems strange
And we've had no exchange of words and I've [Incomprehensible]
We were meant to be, so let's throw the dice and we will see

Girl, I'll give you all that I have
Slow, let's not move too fast
I'll make sure there's nothing you need
And I promise you baby, that I'll always be

Girl it ain't no thing, if you're willing, we can swing
I'm ready and willing, I hope you feel what I'm feeling, yeah, yeah
I want you here tonight 'cuz you got just what I like
I'm ready and willing, I hope you feel what I'm feeling

Girl, you know you got me in a daze, I won't lie
It's just your ways that's got me feeling, your actions just mix
And your love is blowing my mind and your body's being so kind
Girl, you consume my every thought, baby come with me, ready or not

Girl, I'll give you all that I have
Slow, let's not move too fast
I'll make sure there's nothing you need
And I promise you baby, that I will always be

Girl it ain't no thing, if you're willing, we can swing
I'm ready and willing, I hope you feel what I'm feeling, yeah, yeah
I want you here tonight 'cuz you got just what I like
I'm ready and willing, I hope you feel what I'm feeling

{Yo, what's up baby?
You know that's the reason
I pulled you over here, right?
Yeah, I'm ready, I'm willing, for whatever}

Gonna put you where you wanna be
I just wanna be your fantasy
Got me ready and willing
And I'll show you love, show you love, now

Gonna put you where you wanna be
I just wanna be your fantasy
Got me ready and willing
And I'll show you love, show you love, now

Gonna put you where you wanna be
I just wanna be your fantasy
Got me ready and willing
And I'll show you love, show you love, now

Girl it ain't no thing, if you're willing, we can swing
I'm ready and willing, I hope you feel what I'm feeling, yeah, yeah
I want you here tonight 'cuz you got just what I like
I'm ready and willing, I hope you feel what I'm feeling
