

# Season's Change

Jagged Edge

Now when the seasons change, oh, we don't stay the same  
Oh, we could use a break from the hurt and pain  
When the seasons change, I know we could do the same  
We could shed our leaves, with sunlight we could grow today  
When the seasons change

Winter, spring, summer to the fall  
Baby by now we been through it all  
It ain't no summer if you'll be gone  
And I know that we both can change

Said we need a change, yes  
Said we all can change, yes  
Don't be afraid of the change, no

And everytime the seasons change, oh we do too  
Nothing remains the same, neither should me and you  
Gotta have faith in the way...  
In the way that He moves as the seasons change

We need a change, yes we do  
We all can change, yes we can  
And I know it's all in you, its in me too

When the seasons change, oh, we don't stay the same  
Oh, we could use a break from the hurt and pain  
When the seasons change, I know we could do the same  
We could shed our leaves, with sunlight we could grow today  
When the seasons change

Winter, spring, summer to the fall  
Baby by now we been through it all  
It ain't no summer if you'll be gone (Ain't no summer)  
And I know that we both can change (Oh Yes we can)  
Yes we can... ain't' no doubt in my mind oh no that we both can change

Now maybe we should change the flaws in ourselves  
Sometimes we not even real with ourselves  
Every little change ain't perfect, but it helps  
We can do it, you know it... and you'll see the seasons change

We need a change  
When the seasons change I ain't afraid to change  
We need a change... We all can change  
Ohh  
Said it's time for change... we need to change  
When the seasons change, I ain't afraid to change  
Oh we need a change... we all can change
