

This Christmas

Jagged Edge

All I want, this Christmas
Is to keep your body warm
If we share this Christmas
I will give you the world

Girl if you let me explain, I know it's a shame
This time of year, it should not bring you pain
So many things that went wrong and I was the cause
I'd climb down the chimney to be, Santa Clause

So girl, don't go this day is made for love
So girl, don't go this day is made for love

All I want, this Christmas
Is to keep your body warm
If we share this Christmas
I will give you the world

All I imagine is you, since it's Christmas time
And all of our hopes have a means to come true
Between me and you, said all I can do, yeah
And I'll do whatever it takes to see it through

So girl, don't go this day is made for love

All I want, this Christmas
Is to keep your body warm
If we share this Christmas
I will give you the world

All I want, this Christmas
Is to keep your body warm
If we share this Christmas
I will give you the world

There's nothing like Christmas time, babe
There's nothing like Christmas time, babe

All I want, this Christmas
Is to keep your body warm
If we share this Christmas
I will give you the world

All I want, this Christmas
Is to keep your body warm
If we share this Christmas
I will give you the world
