

Before I Leave

Jah Cure

Cure again
Wanna give you some more again (yeah)
Cure again (whoo)

Before I leave, feel me again
Capture the moment so it never ends
Before I leave, show me again
Act like you never want it to end

You can meet me in dah shower
We can dry off in dah covers
And take advantage of each other
Before I leave (yeah)
I don't need no cup of coffee
You motivate my body
Just slip into something naughty
Before I leave (yeah-yeah)

Before I leave, feel me again
Capture the moment so it never ends
Before I leave, show me again
Act like you never want it to end

Oooh, let me carry you to the kitchen
Let me serve what you've been missing
Ain't no time for intermission
Before I leave (oh yeahh)
We create a new position
You can lose your inhibition
Let me take away all your attention
Before I leave (yeah yeah)
We don't have to rush no
I'll make sure you get enough, girl
So I can be the last thing on your mind
I'm a make you call out my name
Before I leave

Before I leave, feel me again (before I leave)
Capture the moment so it never ends
Before I leave, show me again
Act like you never want it to end

I don't want it to end (oh oh)
Oh show me your love (oh oh)
Show me your love (oh girl)
Before I leave, feel me again
Before I leave, call out my name
Before I leave, feel me again
