

Miles Away

Jah Cure

Only for you, for you, ohhh, now that I love you, no one above
you

More than a million miles away
More than a million words to say ohhhh
Now and forever and ever, will be just you and me

Longing to hold you hold you hold you near my heart
From when from when from when everytime you miss again

Girl I'll never let you go I just wanted you to know
How much I love you so
Think it's time for love to grow ahhh
Will be just you and me

Hold me squeeze me feel me oh
Cause I never wanna be lonely
Lonely for you, girl you know how much I love you I love you I
love you
Yeaaaaaaa

Ohhhh longing to hold you hold you hold you near my heart
From when from when from when everytime u miss again
