

Nothing Is Impossible

Jah Cure

Cureee Again!

Put your lighters up again

To the people, and all the children of the world

If you can see it, it's not far away

Before you can reach it

You must endure the pain

Real talk you can touch the sky

Make no doubt about it noooo

Real talk you can sit pan high

make no doubt about it nooo

Real talk we do it for the youths, another generation

Yea you're strong enough to meet your destiny say

Nothing, nothing is impossible

No one can hold us down

We, Yeah we are unstoppable

Cause nothing is impossible

ohh ohh No nothing is impossible ohh ohh

oh nooo oh noo

If the door doesn't open

Don't wait use force to knock it down

Ain't no time for mopping,

No, the moment is right now

Real talk you can touch the sky

Make no doubt about it noooo

Real talk you can sit pan high

make no doubt about it nooo

Real talk we do it for the youths, another generation

You are strong enough to meet your destiny say

Nothing, nothing is impossible

You can do anything

No one can hold us down

We, Yeah we are unstoppable

Cause nothing is impossible

No, nothing is impossible
