

## Another Round

Jaheim

She licked the salt, then licked the lime,  
taken shots with her, but I'm sippin mine  
And by the time her and her girls take a flick and sit back down  
I opened open a tab, keep comin, I ordered

Another Round, round round and the room start spinnin  
Woke up in the Mandarin Inn beds spreads linen  
Lips licking an olive on a dirty mar, she said meet me tomorrow  
Couple rounds up at the bar, me I'm on that dark  
She on that clear, on the rocks, another round over here  
And if we keep this up its going down (down)  
Take that to the head, go ahead, order another round  
Words start to slur, its all over her  
And we both on that liquid courage,  
and we about to be on the verge, we order another round  
Another round, its going down, its going down  
Another round, another round  
Its going down, its going down

No photo shop, build soda pop,  
got the kind of body that can't nobody stop  
And by the time she hit her limit, getting timid, slowin down  
I popped open up the bottle, empty bottles and order another round

We both wake up with the worst hang over (hang over)  
The party's over and we're both sober (sober)  
And I look over at her, she look's over at me  
As far as I remember, I cant remember honestly but oh  
She on that clear, on the rocks, another round over here  
And if we keep this up its going down (down)  
Take that to the head, go ahead, order another round  
Words start to slur, its all over her  
And we both on that liquid courage  
and we about to be on the verge, to order another round  
Another round, its going down, its going down  
Another round, another round  
Its going down, its going down  
Round, Down, Round, Down, Down
