

Diamond In Da Ruff

Jaheim

Mmmmmh diamond

Ohh diamond (diamond)

Diamond in da ruff

someone that you don't meet twice

We left the Brickz for the 'Burbs

turned Mo into Remy

matching fur coats and Fendi

from the bus to a Bentley coupe

with a closet full of shoes yeah

Than our smiles turned to frowns

ups turned to downs

I don't know where i'm going now

I think about her every once in awhile

We started out like Bobby and Whitney

Justin and Britney

Then it all got ugly

if it weren't for the money

you said i start actin' funny

but what's wrong witcha honey

then the good turned to bad

forgot what we had

is it to late to get it back?

I think about her

more than once in awhile

Like when i spot a rainbow

or see a fallin' star

a set of twins, or a classic car

a four leaf clover, or a two dollar bill

it's so rare that it's so unreal

And I don't know how to get over her smile

I wonder what she's doin (what's goin on)?

I think about her every once in awhile (once in awhile)

I should've came with a ring

set a date for next May

guess i thought that you'd wait

now I hate that I took so long

played around wit' her now she's gone

now my smiles turned to frowns, ups turned to downs

and i don't know where i'm goin (now now now now)

I think about her every once in awhile

We argued like Archie and Edith

like Ike turned on Tina

but I really didn't mean it

I was raised not to hit a woman

especially not the one i'm lovin'

but when the good turned to bad

happy to sad
I wish we could take it back/(How I miss you baby
I think about her every once in awhile

Like when I spot a rainbow
or see a fallin star
a set of twins, or a classic car
a four leaf clover or a two dollar bill
it's so rare that it's so unreal

I don't know how
to get over her smile
I wonder what she's doin now
I think about her every once in awhile

Your like a star
shinning in the broad daylight
Something you don't see all the time
and now I finally recognize
that I shoulda made you all mine
never shoulda let you pass me by
you put that sparkle in my life
someone that you don't meet twice
i'm gonna live to regret it baby
ooooh
baby, baby
I miss you...need you...yeahhh
