

# Impossible

Jaheim

There's something about young love  
So many people say that it is so impossible, impossible, impossible  
Yeah this is how I feel  
Ever since I met you girl everything about me changed  
Suddenly I feel alive something about you by my side  
Me and you against the world finally a diamond girl  
I've even been the same ever since I heard your name  
You are the reason my heart skips a beat sometimes  
I've been waiting all my life I think I finally found my wife  
But I don't wanna rush your heart take your time sweetheart  
Say the word I'll come wherever you are

Shorty hear me now when you need me  
Just reach out I'll be close enough to witness the moment you say  
Now it's impossible  
For me to live without you  
For me to breath without you  
Cause I can see just who I am suppose to be  
Now it's Impossible for me to be without love  
Girl you make my life about love  
So the people see the impossibilities yea

They say we couldn't touch the moon  
Look what our love can do  
Got forever in my sight  
Saw haven in your eyes  
Just what I was dreaming of  
Need you on my team because you make me a superstar  
I don't need a fancy car  
You are the reason my heart skips a beat sometimes  
I've been waiting all my life I think I finally found my wife  
Heaven is in your smile  
Mind if I stay a while  
Happiness everywhere since I found my shorty

Can't no body tell me that I don't love this girl  
It's driving me crazy  
I'm trying to love around the world?  
Then I think about the past don't wanna bring it back  
Loneliness and heartache is all I ever had  
Come closer To me  
Whoa whoa Real love makes you say oh yeah oh yeah yeah oh yeah  
you're my genie in a bottle  
Forever you're my super model
