

Let's Talk About It

Jaheim

No, no, no, Daddy
No, no, no, Daddy

Yo huh, I dedicate this song
To all the people who wanna
Know all about Jah's life

Let's talk about it
(come on right now, let's talk)
Just reminiscing on the times we had
When we were rowdy,
(talk about it)
Oow when thoughts were cloudy
Come on let's talk
(come on right now let's talk)
About a time and place when
We thought we'd never see tomorrow
From all the drama
Let's talk about it

Coming up life was so real
Reminiscing 'bout the pass
And a nigga had it fucked up
Tough years of being locked up
First bid juvenile kid locked up
Time passed on got my weight up
Parole gave the gate up
Back to the street and got laid up

Through the blast back to the pass
Up to no good
You were my home, it's cheap and
That's good

Let's talk about it
(come on right now, let's talk)
Just reminiscing on the times we had
When we were rowdy,
(talk about it)
Oow when thoughts were cloudy ooh
Come on let's talk (talk about it)
(come on right now let's talk)
About a time and place when
We thought we'd never see tomorrow
From all the drama (drama)
Let's talk about it
I think about all the times we broke
Nights wildin' out doin' us
Just drivin kickin it hoping us
And if a nigga was chump
Couldn't hang around, no
Way back then
I miss those good ole days
Hangin in the park takin after dark
Flashbacks from the pass,
Can't seem to get away
It's just ragdy movin

Round me day to day

Let's talk about it
(come on right now, let's talk)
Just reminiscing on the times we had
When we were rowdy, yeah
(talk about it)
Oow when thoughts were cloudy
Come on let's talk yeah, yeah
(come on right now let's talk)
About a time and place when
We thought we'd never see tomorrow
From all the drama
Let's talk about it

All the kids out did when we were kids
Grew up has kids on their own
Protect and kill pact
With the we crow act there's jah
Twenty to life, you're gone
When I look back on my life
Dam near died by the knife
Now I know that I just can't stop
No more younger days sippin ru
Gettin blazed up
Wish I cold turn back the clock

Let's talk about it
(come on right now, let's talk)
Just reminiscing on the times we had
When we were rowdy,
(talk about it)
Oow when thoughts were cloudy
Come on let's talk
(come on right now let's talk)
About a time and place when
We thought we'd never see tomorrow
From all the drama
Let's talk about it

Flashbacks from the pass
I been thuggin'
Runnin' from the poe poe
Buggin
You said I'd never be nothing
Still came out to be something
It wasn't easy, naw naw it wasn't easy
