Jaheim

I caught her, she was headed for the door  
The DJ had her rocking back and forth  
And shorty had a, Lord  
I grabbed her by the hand, then she turned around  
Then she started to look me up and down  
She saw the Gucci boot, belt, comma, plus the bag  
So easily I had that in the bag  
[?] my kind of woman, mature, text messaging each other more and more

And I say show me something, she be like LOL  
Quit playing games, TTYL  
Then she get up the nerve and be like oh, what the hell  
You got mail

She be sending pictures, she be saying I can't wait until I'm with you  
Get the picture, looking at them pics got be about to cry  
Me and her, we sexting, freaky, freaky texting  
Told her send your boy a photo  
She be saying better make sure it's a no show, that's a no, no  
Don't let your home girl see what I'm sending back  
Me and her, we sexting, freaky, freaky texting

What I saw caught me by surprise [?] like heaven to my eyes  
She get the smooth hips and lips and thighs  
Energize, it's giving me a rise  
Dignified but she freaky in the slide  
Send one in those heels and I'm like hold up in a chill  
Got me sweating, I got one hand on the wheel  
The other one scrolling, tryna hold it down  
Time I get back to you, baby, look at how you got me now

And I say show me something, she be like LOL  
Quit playing games, TTYL  
Then she get up the nerve and be like oh, what the hell
