

# She Ain't You

Jaheim

She don't make me feel like you  
She don't hold me down like you  
On the real, she aint you you you you you you  
She can't wear the crown like you  
She can't put it down like you  
On the real she ain't you you you you you you

I like her, but I love you  
She's fly, but she can't fly over you  
You're love is like a brand new Bentley Coupe  
Her love is like a Benz that's been used  
And you just can't compare the two  
The road to happiness leads back to you  
Now since we been apart  
I done tried a few  
Nobody's coming close to you

She don't make me feel like you  
She don't hold me down like you  
On the real, she aint you you you you you you  
She can't wear the crown like you  
She can't put it down like you  
On the real she ain't you you you you you you

These other girls just can't fill your shoes  
They can't walk in your Gucci boots  
If I let you move on to someone new  
I would feel like such a fool (That would be crazy)  
Cause baby you're a winner  
And everytime I'm with her  
I be thinking bout you boo  
And how she don't compare to you

She don't make me feel like you  
She don't hold me down like you  
On the real, she aint you you you you you you  
She can't wear the crown like you  
She can't put it down like you  
On the real she ain't you you you you you you

Now how can I prove myself  
I really don't need nobody else  
You're the one that I love  
My angel from up above  
First time I laid my eyes on you  
Knew that you were the one  
And babygirl you're second to none  
She's Light, but she ain't my type  
And girl it's true  
I wanna give you my life  
And I hope that one day  
You'll let me make you my wife  
Baby
