

Dusk Till Dawn

Jakalope

Wanna go for a ride, come live our life? We're on top now. (Baby)

Wanna do it right, wanna get inside? All day and night now.

Get out of the way we're back in the business, nothing you can do we're coming for you.

You can run you can hide but sooner or later, you're gonna find you've run out of time.

Midnight, twilight, dusk to dawn we own the night.

Oh, taking over your home, everything that you own belongs to us now.

Now we've turned off your lights, everything in your sight, we're invading your mind now.

Get out of the way we're back in the business, nothing you can do we're coming for you.

You can run you can hide but sooner or later, you're gonna find you've run out of time.

Midnight, twilight, dusk to dawn we own the night.

We're coming out tonight, the feelings right, no light in sight.

.
