## **All Your Reasons**

Got all of your reasons And all of thems been used Read a lot about it You can read up in the news There's a lot of hungry faces There's a lot of pain out there Oh anyway, it's been a long, long day Oh anyway

Didn't disappoint you Didn't want to make you sad Given all the choices Good's given from the bad There's a lot I need to tell you There's a lot that you should know Oh anyway, it's been a long long day

So if I keep myself from moving on Oh angel, angel, angel will fly 'Cause it's my heart's desire To set the world on fire Oh angel, angel Angel will fly to the moon

It's all, it's almost gone And I'll be singing all the songs

Heard all the excuses And all have been refused I've read a lot about you You can read up in the news There's a lot of fairy tales While it's a cold world outside

Oh anyway, it's gonna stay that way

So if I keep myself from moving on Oh angel, angel, angel will fly 'Cause it's my heart's desire To set the world on fire Oh angel, angel Angel will fly to the moon
