

Green Man

Jake Bugg

Come, come on a ride,
I'll take you through the stars, space and time,
Words won't mean a thing,
Cause there'll be no words where we're going.

In your sleep, in my dreams,
Well, I'm crawling through the haze,
I've been a green man for days out long.

Be more true out linking,
Where the blue skies go so make a mistake,
Dream, mine all alone,
That in the heading smoke all I do is blow.

In your sleep, in my dreams,
Well, I'm crawling through the haze,
I've been a green man for days out go.

Come, come on a ride,
I'll take you through the stars, space and time,
In this world of mine.

In your sleep, in my dreams,
Well, I'm crawling through the haze,
I've been a green man for days out long,
Out long, out long.
