

Me and You

Jake Bugg

All the time people follow us where we go
We both should believe the path that we chose
And I'll hold you with such delicacy
No they won't catch you and me

It's all over all of the time
And if you want to I won't mind
Please don't leave it
I don't know what to do
No they won't catch me and you

There are too many flashes and guards around me
There is so little time and places to see
And we can wait so patiently
No, they won't catch you and me

It's all over all of the time
And if you want to I won't mind
Please don't leave it
I don't know what to do
No they won't catch me and

All of these people want us to fail
I won't let that happen no
Just you believe me
I'll hide you discreetly
Discreetly from this cold world

It's all over all of the time
And if you want to, I won't mind
Please don't leave it
I don't know what to do
No they won't catch me and you
No they won't catch me and you
No they won't catch me and you
