

# Put Out the Fire

Jake Bugg

When you try to get too close  
In your flammable clothes  
Step to the flames  
But it isn't a taste  
Leave it to the rain  
Don't put out the fire  
Put out the fire  
Traveling long ground  
Panicking is a sign  
It's moving really fast  
So don't put out the fire  
Put out the fire

Put out the fire

When you're trynna be so smart  
When the forest ain't so dark  
Flames cut through the trees  
Grow within the breeze  
You wake up on your runnin  
But you'd never put out the fire  
Put out the fire  
It will catch real soon  
And take you to your tome  
It's closing in quickly  
So you better put out the fire  
Put out the fire

Put out the fire

When you find yourself in close  
In between that heat that rose  
Chocked on the smoke  
Felt it in your throat  
The drought rovoaked you  
That you're never putting out the fire  
Put out the fire  
Only in doubt  
I'ma getting out  
I'm never gonna breath  
Cause I'll never put out the fire  
Put out the fire

Put out the fire
