

Waiting for You

Jake Coco

after all the broken hearts and the faith I lost in you
a thousand broken roads, girl they lead me back to you
I'd forsaken everything and left my world to disappear
but everything falls apart
when you're gone

and after all the fairy tales
I can taste your jealousy
a thousand bitter tears, they dance on your pretty cheek
and they fall to the rhythm of my songs like they know the melo
dies
and everything falls apart when your gone

and I'm waiting for you....
