

# Ghost Town

Jake Owen

Thought it was safe to go outside  
But I guess I was wrong  
Thought I could take a little ride  
Just to see what was going on  
Girl I know it's been awhile  
Awhile since you've been gone I swear  
Aw but baby I still see you everywhere

Around every corner, cafe, backroad, stop sign, stoplight  
streetlight glowing  
Around every highway, driveway, fast song, slow song on my radio  
At every party, dive bar, backseat in my car  
Sounds crazy I know  
But you just keep hanging around  
You got me living in a ghost town  
Girl I see you every road I go down  
Your memory of me about to throw down, showdown, oh now  
Why'd you leave me living in a ghost town  
(Why'd you leave me living in a ghost town)

Across the room I see your face  
Then it disappears  
I hear your voice call out my name  
Whispering in my ear  
I reach for you but you're not here  
You're still here

Around every corner, cafe, backroad, stop sign, stoplight  
streetlight glowing  
Around every highway, driveway, fast song, slow song on my radio  
At every party, dive bar, backseat in my car  
Sounds crazy I know  
But you just keep hanging around  
You got me living in a ghost town  
Girl I see you every road I go down  
Your memory of me about to throw down, showdown, oh now  
Why'd you leave me living in a ghost town

I know you don't want me so why oh why oh why do you haunt me

Around every corner, cafe, backroad, stop sign, stoplight,  
streetlight glowing  
Around every highway, driveway, fast song, slow song on my radio  
At every party, dive bar, backseat in my car  
Sounds crazy I know  
But you just keep hanging around  
You got me living in a ghost town  
Girl I see you every road I go down  
Your memory of me about to throw down, showdown, oh now  
Why'd you leave me living in a ghost town
