

Good Company

Jake Owen

We're just back porch sitting
Doing some old school picking
Got some brand new strings on my Gibson
Yeah, I'll play your favorite song

The cooler's down to the last drop
But it won't last that way long
'Cause Tommy's making a beer run
So baby, come on

We're in good company
Yeah, the only thing missing
Is a pretty girl sitting next to me
Kissing up on me, and I got a spot waiting on you
So B.Y.O.B, it means bring yourself over, babe
Got what we need to make good vibes, good times
And a damn good memory
We're in good company
Yeah, yeah we're in good company

Well, the pool's full, come on get in it
Got a hole, throwing bean bags in it
And Robby's painting on the brisket
It's a K.C. masterpiece

You know they make Saturday's
For doing whatever you want
The weekend's where it begins
So baby, baby come on

We're in good company
Yeah, the only thing missing
Is a pretty girl sitting next to me
Kissing up on me, and I got a spot waiting on you
So B.Y.O.B, it means bring yourself over, babe
Got what we need to make good vibes, good times
And a damn good memory
We're in good company, yeah
Oh, in good company, yeah, come on

We got them good vibes
Them good times
And damn good memories
We got that good wine
Off that good vine
It's a damn good night to be

In good company, yeah
The only thing missing
Is a pretty girl sitting next to me
Kissing up on me, and I got a spot waiting on you

We're in good company
Yeah, the only thing missing
Is a pretty girl sitting next to me
Kissing up on me, and I got a spot waiting on you
So B.Y.O.B, it means bring yourself over, babe

Got what we need to make good vibes, good times
And a damn good memory
We're in good company, yeah
We're in good company, oh, yeah
We're in good company
