

Heaven

Jake Owen

There's a place that they call Heaven
Just south of town way up on a hill
They say you can see for miles
When the sun goes down, time stands still

No I've never been up to Heaven
But I've always wanted to go
It's ten miles down highway eleven
And ten more minutes up the old dirt road

Well hey baby I was hoping
Maybe you'd feel like taking a drive
Cause I can take you on a trip to Heaven
And have you back by tonight

Well there's a store on the way to Heaven
They oughta have everything we need
A bag of ice, a six pack of something
And a few dollars worth of gasoline

Well hey baby I was hoping
Maybe you'd feel like taking a drive
Cause I can take you on a trip to Heaven
And have you back by tonight

Oh I've heard that it's perfect
So what do you say we see if they're right
Well I can take you on a trip to Heaven
And have you back by tonight

Well hey baby I was hoping
Maybe you'd feel like taking a drive
Cause I can take you on a trip to Heaven
And have you back by tonight

There's a place that they call Heaven
Just south of town way up on a hill
They say you can see for miles
When the sun goes down, time stands still
