

# Something To Ride To

Jake Owen

Well come on now small town DJ  
She really broke my heart  
Now I'm just driving down this highway  
Listening in the dark  
And all I really need is a catchy hook  
No poetic words from a fancy book  
No lines about love and forever  
Just something that'll make me feel better

Give me something to ride to  
And forget about life too  
The kind you wanna get high to  
Lay back in the night to  
Yeah used to be dance songs  
Slow jams and romance songs  
But now that she's gone and the radio's on  
Yeah I just want one that don't sing about her  
Give me something to ride to

Well I don't know where I'm going right now  
But the sign on the road says south  
And if I hear one more slow down sound  
I'm bound to turn back around

So give me something to ride to  
And forget about life too  
The kind you wanna get high to  
Lay back in the night to  
Yeah used to be dance songs  
Slow jams and romance songs  
But now that she's gone and the radio's on  
Yeah I just want one that don't sing about her  
Give me something to ride to

Yeah, yeah  
Give me something to ride to

Get her out of my mind tune  
A feel the good in goodbye tune  
No lines about love and forever  
Just something that'll make me feel better

Give me something to ride to  
And forget about life too  
The kind you wanna get high to  
Lay back in the night to  
Yeah used to be dance songs  
Slow jams and romance songs  
But now that she's gone and the radio's on  
Yeah I just want one that don't sing about her  
Give me something to ride to

Yeah, yeah  
Give me something to ride to

Come on now small town DJ  
She really broke my heart

And I'm just driving down this highway  
Listening in the dark
