

# Subliminal Love

Jake Owen

She's a message in a bottle floating on a sea of secrets  
She'll sneak upon you like the tide does the beaches  
She'll have you daydreaming, losing all of your focus  
And have you falling 'fore you know it

Into those ocean eyes, saying "jump on in"  
That hair that falls like waves crashing on her skin  
She'll have you hypnotized with that come kiss me smile  
And that touch that says you're gonna stay awhile  
She's got that...  
Subliminal love, subliminal love, subliminal love, love, love

Like a feather, she'll take you where the wind blows  
Kiss you like the sun through a palm tree shadow  
Body like a light at the end of your tunnel vision  
Make you see what you've been missing

Into those ocean eyes, saying "jump on in"  
That hair that falls like waves crashing on her skin  
She'll have you hypnotized with that come kiss me smile  
And that touch that says you're gonna stay awhile  
She's got that...  
Subliminal love, subliminal love, subliminal love, love, love

She's got that easy, breezy  
Have you waking up thinking that you're dreaming

In those ocean eyes, saying "jump on in"  
That hair that falls like waves crashing on my skin  
She'll have you hypnotized with that come kiss me smile  
And a touch that says you're gonna stay awhile  
She's got that...  
Subliminal love, subliminal love, subliminal love, love, love  
Subliminal love, subliminal love, subliminal love, love, love
