

Tall Glass of Something

Jake Owen

It's 100 degrees down in Macon
And that's making me wanna drink
(Awww sip sip)

Got a truck full of peaches
ain't no beaches round here but we got a skating rink
(Aww ya, skate skate)

There's a bar in the back, yea that's where we're hanging
It's a kiddy pool and a hose, kinda thing we need ice

Solos, toyos
Lift em up

I need a tall glass of something nice and strong
A little liquor and a loving baby all night long
I need a kick in the chest, a shot to the lips
A little hot mess, martini, shake your hips
I said tequila, margarita, señorita please
Chase it down with a Corona and some sex on the beach
A yellow umbrella for this fella, a kiss on my cheek
Just you and me, that's all I need
Oh and a tall glass of something

(sipping and chugging, sipping and chugging chugging)
(sipping and chugging, sipping and chugging chugging chugging)

I'll tell you one thing about me
I get thirsty about 5:30
In the sunshine or the rain
So choo choo baby, come on hop on the train

Lift em up

I need a tall glass of something nice and strong
A little liquor and a loving baby all night long
I need a kick in the chest, a shot to the lips
A little hot mess, martini, shake your hips
I said tequila, margarita, señorita please
Chase it down with a Corona and some sex on the beach
A yellow umbrella for this fella, a kiss on my cheek
Just you and me, that's all I need
Oh and a tall glass of something

(sipping and chugging, sipping and chugging chugging)
(sipping and chugging, sipping and chugging chugging chugging)
