Can I Be Him

James Arthur

You walked into the room And now my heart has been stolen You took me back in time to when I was unbroken Now you're all I want And I knew it from the very first moment Cause a light came on when I heard that song And I want you to sing it again

I swear that every word you sing You wrote them for me Like it was a private show But I know you never saw me When the lights come on and I'm on my own Will you be there to sing it again Could I be the one you talk about in all your stories Can I be him

I heard there was somone but I know he don't deserve you If you were mine I'd never let anyone hurt you I wanna dry those tears, kiss those lips It's all that I've been thinking about Cause a light came on when I heard that song And I want you to sing it again

I swear that every word you sing You wrote them for me Like it was a private show But I know you never saw me When the lights come on and I'm on my own Will you be there to sing it again Could I be the one you talk about in all your stories

Can I be the one Can I be the one Can I be the one Oh, can I, can I be him

Won't you sing it again Oh, when you sing it again Can I be him Won't you sing it again Oh, when you sing it again Can I be him

I swear that every word you sing You wrote them for me Like it was a private show But I know you never saw me When the lights come on and I'm on my own Will you be there, will you be there Can I be the one you talk about in all your stories Can I be the ne you talk about in all your stories Can I be him Can I be him Can I be him
