

Let Me Love the Lonely

James Arthur

You love all the jokes, even the ones you know
Funny I'm doing that, too
I love the crowded room, the one strings that's out of tune
Trust me, I feel like I do

Let me love the lonely out of you
Let me love the pain you're going through
I think I've saved myself by saving you
Let me love the lonely out of you

Lighthouse without the lights
You smile without your eyes
I know 'cause I do that too
Your own worst enemy, you think that no one sees
I do, 'cause I'm like that too

Let me love the lonely out of you
Let me love the pain you're going through
I think I've saved myself by saving you
Let me love the lonely out of you

We can light a fire to moment
'Cause what is to see the love?

Let me love the lonely out of you
Let me love the pain you're going through
I think I've saved myself by saving you
Let me love the lonely out of you
Let me love the lonely out of you
Let me love the pain you're going through
I think I've saved myself by saving you
Let me love the lonely out of you
