

# New Tattoo

James Arthur

Under my skin, beneath my fingertips  
You slip and slide away  
Let me begin to understand how you operate in such a calculated way  
Before today, I didn't know if I'd make it  
But now it's all making sense

Yeah, yeah

I wear you like a new tattoo  
The design, the desire, I don't wanna remove  
You're the kind of thing that I could love forever  
I wear it like a new tattoo  
And I'll be so happy that I'm stuck with you  
And we cannot deface in any weather

Da, da, da, da

And do you ever look in the mirror  
Oh, and not know who you are, or know where you going  
Oh, and before today  
I didn't know if I'd make it  
But now it's all making sense

Yeah, yeah

I wear you like a new tattoo  
The design, the desire, I don't wanna remove  
You're the kind of thing that I could love forever  
I wear it like a new tattoo  
And I'll be so happy that I'm stuck with you  
And we cannot deface in any weather, any weather, any weather

And I was so lost, and I was so lost, in this world  
With no place, and no purpose, no  
Blowing up, and I will get bigger, never high  
Run a fire, the harder we'll love

I wear you like a new tattoo  
And I'll be so happy that I'm stuck with you  
And we cannot deface in any weather

I wear you like a new tattoo  
And I'll be so happy that I'm stuck with you  
And we cannot deface in any weather

Any weather, any weather, any weather
