

# Move Together

James Bay

Home now, end of the night  
And it's colder to turn on your side  
And I know you are up in two hours  
But we didn't get tonight, we don't have tomorrow  
So don't ruin now

How we gonna move together?  
Just come closer  
If we don't move together  
Come closer  
How we gonna breathe? How we gonna be together?  
Just keeping the peace between the sheets

And I creep in and everything's loud  
And I'm sorry, I've woken you now  
And we'll argue, the tiniest thing  
But we didn't get tonight, don't have tomorrow  
So I'm done whispering, done whispering

How we gonna move together?  
Just come closer  
If we don't move together  
Come closer  
How we gonna breathe? How we gonna be together?  
Just keeping the peace between the sheets

So maybe don't give me cold, cold shoulder  
Before you go, turn around and let me hold you  
And let me say in the dark of the morning  
Just one more thing

How we gonna move together?  
Just come closer  
If we don't move together  
Come closer  
How we gonna breathe? How we gonna be together?  
Just keeping the peace  
Just keeping the peace  
Just keeping the peace between the sheets
