

# Stealing Cars

James Bay

All we need is a spark  
A second chance, a lifeline  
Waiting up in the dark  
Holding up for a search light

No I don't know why seasons change  
Or how we fell so far  
Before our hearts go up in flames  
Let's go throwing stones  
And stealing cars

Let the heat of the sun  
Reignite your memory  
'Cause if we just turn and run  
Let them fire the gun

No I don't know why seasons change  
Or how we fell so far  
Before our hearts go up in flames  
Let's go throwing stones  
And stealing cars

Sirens and smoke remind us  
Maybe the world won't find us  
Fall to the Earth in red light 'til it's gone  
Gone

No I don't know why seasons change  
How we get back to the start  
Before our hearts go up in flames  
Let's go throwing stones  
And stealing cars  
Let's go throwing stones  
And stealing cars

Oh tonight these streets are ours to roam  
Oh tonight these streets are ours to roam
