

# Us

James Bay

Sometimes I'm beaten  
Sometimes I'm broke  
'Cause sometimes this city is nothing but smoke  
Is there a secret?  
Is there a code?  
Can we make it better?  
'Cause I'm losing hope

Tell me how to be in this world  
Tell me how to breathe and feel no hurt  
Tell me how 'cause I believe in something  
I believe in us

After the wreckage  
After the dust  
I still hear the howling, I still feel the rush  
Over the rise, above all the noise  
Through all the worry, I still hear your voice

Tell me how to be in this world  
Tell me how to breathe and feel no hurt  
Tell me now 'cause I believe in something  
I believe in us  
Tell me when the light goes down  
That even in the dark we can find our way out  
Tell me now 'cause I believe in something  
I believe in us

We used to be kids living just for kicks  
In the cinema seats learning how to kiss  
Running through streets that were painted gold  
We never believed we'd grow up like this

Tell me how to be in this world  
Tell me how to breathe and feel no hurt  
Tell me now 'cause I believe in something  
I believe in us  
Tell me when the light goes down  
That even in the dark we can find our way out  
Tell me now 'cause I believe in something  
I believe in us  
Tell me now 'cause I believe in something  
And I believe in us
