

# Wasted on Each Other

James Bay

Hold onto something, I can feel the floor leaving  
We're done with coming up and way past coming down  
My body shakes, a part of missing you  
I know you miss me too, I know you do

Is it a sane desire?  
Is it insane to try?  
We let this runaway train catch fire (I don't care)  
I don't care, all I want is you

We can try to stop this bruising, we can be like novacaine  
There's a high we keep on choosing, we don't wanna change it  
Everybody calls us foolish, they don't know how foolish tastes  
Every time we try to fight it, we just end up wasted  
Wasted on each other  
Wasted on each other

Put your hands up!  
We've both got people tryna creep in, policing  
Since when was this thing so indecent?  
Stop acting like everything's understood  
I know you miss me, too

We can try to stop this bruising, we can be like novacaine  
There's a high we keep on choosing, we don't wanna change it  
Everybody calls us foolish, they don't know how foolish tastes  
Every time we try to fight it, we just end up wasted  
Wasted on each other

You build me up and in the same breath you knock me down  
You turn me on, and just as quick, you might kick me out  
Can't find a way to get away  
So we might as well stay for another night

We can try to stop this bruising, we can be like novacaine  
There's a high we keep on choosing, we don't wanna change it  
Everybody calls us foolish, they don't know how foolish tastes  
Every time we try to fight it, we just end up wasted

We can try to stop this bruising, we can be like novacaine  
There's a high we keep on choosing, we don't wanna change it  
Everybody calls us foolish, they don't know how foolish tastes  
Every time we try to fight it, we just end up wasted  
Wasted on each other

Wasted on each other  
Wasted on each other
