James Blake

My brother and my sister don't speak to me  
But I don't blame them  
But I don't blame them  
My brother and my sister don't speak to me  
But I don't blame them  
But I don't blame them

My brother and my sister don't speak to me  
But I don't blame them  
But I don't blame them  
My brother and my sister don't speak to me  
But I don't blame them  
But I don't blame them

My brother and my sister don't speak to me  
But I don't blame them  
But I don't blame them

My brother and my sister don't speak to me  
But I don't blame them  
But I don't blame them  
But I don't blame them  
But I don't blame them  
But I don't blame them

My brother and my sister don't speak to me  
But I don't blame them  
But I don't blame them  
But I don't blame them

My brother and my sister don't speak to me  
But I don't blame them  
But I don't blame them  
My brother and my sister don't speak to me  
But I don't blame them  
(But I don't blame them)

But I don't blame them  
(But I don't blame them)  
But I don't blame them  
(But I don't blame them)  
But I don't blame them  
(But I don't blame them)

(But I don't blame them, but I don't blame them)  
But I don't blame them  
(But I don't blame them)  
But I don't blame them  
(But I don't blame them)

But I don't blame them  
(But I don't blame them)  
But I don't blame them  
(But I don't blame them)

But I don't blame them  
But I don't blame them
