

# Noise Above Our Heads

James Blake

I'll find no peace 'til I know you  
'Til I wish you well  
'Til I am not the enemy  
I'll find no peace 'til I hold my light  
Knowing you did right  
And your love is everything I need

I'll find no peace 'til I know you  
'Til I wish you well  
'Til I am not the enemy  
I'll find no peace 'til I hold my light  
Knowing you did right  
I'm here when you don't sleep so well  
I hear it every time you fall in love  
And every muse who puts on every song  
I hear the sound of all the lies  
Turn on and off, oh

I deserve someone better than someone like me

Noise above our heads, even in the night  
Noise above our heads, even in the night  
Especially in the night  
All I wanted was to...  
We just wanted our own space  
And everything you like  
Noise above our heads, even in the night  
Noise above our heads, even in the night  
Especially in the night  
We just wanted our own space  
And everything we like

I'm here when you don't sleep so well  
I hear it every time you fall in love  
And every muse who puts on every song  
I hear the sound of all the lies

I'll find no peace 'til I know you  
'Til I wish you well  
'Til I am not the enemy  
I'll find no peace 'til I hold my light  
Knowing you did right  
And your love is everything I need  
And your love  
I'll halt sleep 'til the...  
And your love  
I'll halt sleep 'til the...  
And your love  
'Til I, I'll halt sleep 'til the...  
And your love is everything  
I'll halt sleep 'til the...  
And your love  
I'll halt sleep 'til the...  
And your love  
'Til I, I'll halt sleep 'til the...  
And your love  
I'll halt sleep 'til the...

And your love  
'Til I
