

Our Love Comes Back

James Blake

You know how we've grown
And how they catch our every turn

Everyone's arrived here
I see the pictures of everyone
And they truly got it

But it's your image burned into my mind
And again I find
That it's worth the pain
And I love
That it's right on time

[Chorus: 2x]

Our love comes back in the middle of the night
Our love comes back in the middle of the night
Our love comes back in the middle of the night
