

## Waves Know Shores

James Blake

And I waited some, and I waited some  
You wanna know me like waves know shores  
You wanna know me like waves know shores  
I'm waiting to see who's mind of gold  
Message after message  
Message after message  
Through your broken turn I hear someone  
Who hasn't found what changes them

You wanna know me like waves know shores  
You wanna know me like waves know shores  
You wanna know me like waves know shores  
You wanna know me like waves know shores  
Like I know my own self's goals  
Like I know my own self's goals  
Like I know my own self's goals  
Like I know, like I know

I suggest you love like love's no loss  
I suggest you love like love's no loss  
I suggest you love like love's no loss
