

# California

James Blunt

High heels, no clouds  
Sun kissed in cloud  
Can't stop, slow down  
I want you, I want you  
No call, no rain  
One kiss, no pain  
Tell me again  
I want you, I want you

You don't wanna talk, then you wanna talk  
Then you wanna tell me I'm not and to move along  
Then you wander back in my heart like a bitter song  
And we're never done cause I need your love, I need your love

California, Hallelujah  
You and me are gonna live for today girl  
I'm the luckiest man in the whole world  
Stole my heart but California  
All I know is I'm with you today girl  
I'm the luckiest man in the whole world

Lies you don't keep  
Hurt and I'll bleed  
But you're so sweet  
And I want you, I want you, yeah

You don't wanna talk, then you wanna talk  
Then you wanna tell me I'm not and to move along  
Then you wander back in my heart like a bitter song  
And we're never done cause I need your love, I need your love

You don't wanna talk, then you wanna talk  
Then you wanna tell me I'm not and to move along  
Then you wander back in my heart like a bitter song  
And we're never done cause I need your love, I need your love, yeah

California, Hallelujah  
You and me are gonna live for today girl  
I'm the luckiest man in the whole world  
Stole my heart but California  
All I know is I'm with you today girl  
I'm the luckiest man in the whole world

C'mon, c'mon, I see it in your eyes  
C'mon, c'mon, just love me for one night  
C'mon, c'mon, I see it in your eyes  
C'mon, c'mon, just love me for one night

California, Hallelujah  
You and me are gonna live for today girl  
I'm the luckiest man in the whole world  
Stole my heart but California  
All I know is I'm with you today girl  
I'm the luckiest man in the whole world

California, Hallelujah  
Then you wander back in my heart like a bitter song

And we're never done cause I need your love, I need your love  
Stole my heart but California  
Then you wander back in my heart like a bitter song  
And we're never done cause I need your love, I need your love
