

# Time of Our Lives

James Blunt

Don't close your eyes, dear, don't you be nervous  
You put this whole damn place in a spell  
I see your friends here, and some of them jealous  
'Cause they know this love don't come off the shelf

I saw your mother, she looked so beautiful  
Remember when she didn't think I would stay?  
But all of those late-night, brokers-held dinners  
Led us to where we're standing today

I'm feeling time moves slow  
I'm seeing faces glow  
None of them shine as bright  
As you tonight  
I'm hearing voices hush  
There's no one else but us  
Darling, there's so much love  
Under these lights  
If it's okay, let's just have the time  
Of our lives

I saw your father, he wouldn't talk to me  
Till he could tell that I was here to stay  
But all of those awkward short conversations  
Led us to where we're standing today

I'm feeling time moves slow  
I'm seeing faces glow  
None of them shine as bright  
As you tonight  
I'm hearing voices hush  
There's no one else but us  
Darling, there's so much love  
Under these lights  
If it's okay, let's just have the time  
Of our lives

Time of our lives  
Time of our lives  
Time of our lives

I'm feeling time moves slow  
I'm seeing faces glow  
None of them shine as bright  
As you tonight  
I'm hearing voices hush  
There's no one else but us  
Darling, there's so much love  
Under these lights  
If it's okay, let's just have the time  
Let's just have the time  
Of our lives
