This Old Heart

James Brown

This old heart
Can't stand much more
This old heart
Can't stand much more

Though I heard it I won't turn you, oh, no

This old heart Can't bear this pain This old heart Can't bear this pain

If you love me You won't hurt me And refrain

Took my love
And now you're gone
Took my heart
And gone on home

I know, pretty baby
That you won't be true
And I don't care what you do

This old heart Can't bear this pain This old heart Can't bear this pain

If you love me You won't hurt me And refrain

Took my love
And now you're gone
Took my heart
And gone on home

I know, pretty baby
That you won't be true
And I don't care what you do

This old heart Can't stand no more This old heart Can't stand no more

Though I heard it I won't turn you, oh, no

Though I heard it
I won't turn you, oh, no
