

That's No Way To Tell A Lie

James Dean Bradfield

I hear you've got some love to give away
But maybe it never belonged to you
So how come you know my name?

So it's closing time again
For the lost souls on a pilgrimage
I think I've seen this somewhere before

That's no way to tell a lie
That's no way to tell a lie

I hear you've got something to say
But first you need some people to say it to
Just before your rise from the dead

So we crawl from the water's edge
Returning to dip our heads again
And back to where it all began

That's no way to tell a lie
That's no way to tell a lie

Sha la la la

That's no way to tell a lie
That's no way to tell a lie
That's no way to tell a lie
That's no way to tell a lie

I hear you've got something to say
But first you need some people to say it to
Just before you rise from the dead
